NATIONAL PARTNERSHIP FOR EDUCATIONAL ACCESS

11th Annual Conference -- April 3-5, 2019 Chicago, Illinois

Since 2007, the National Partnership for Educational Access (NPEA) has fulfilled a need for organizations and schools across the country to share best practices and learn from one another in order to strengthen the field of college access and close the achievement gap that prevents so many children from attaining the benefits of a college degree. In doing so, NPEA has helped more than 330 organizations and schools in 36 states to increase and improve the educational access opportunities they offer their students. Collectively, NPEA member programs serve more than 500,000 underrepresented students across the country.

An integral piece to NPEA's work is the annual conference. **The 11th annual conference will take place in Chicago, Illinois on April 3-5, 2019 and will attract 400 participants from across the country.** The conference provides the opportunity for members and non-members to interact face-to-face, share information, network, hear from experts, and learn from each other. While the conference theme changes each year, the focus is always on how we can work together to better support underserved students on the path to and through college.

Please consider supporting NPEA through a conference sponsorship:

Conference Attendee Quotes:

“Keep developing and presenting great conferences. I want to keep coming because I know that whatever you put together will be great -- I'll learn a lot, I'll leave with actionables, my "bucket" will be filled, and I will be rejuvenated as I continue my work.”

“This conference was, hands down, one of the best conferences I have ever attended!”
